First Aid Cases for the USMLE Step 1, Third Edition

(PDF) First Aid Cases for the USMLE Step 1, Third Edition ...

Therefore if NOTHING was done by the medic, as per OSHA definition etc, it would not count as a "first-aid". We also use OSHA recording criteria for oour internal reporting systems, and if such an event ocured on our site, and a first-aider attended, but there was no first aid treatment (which is rare) we would record it in our internal "system" as a near miss and investgate is proportionately.

Treatment for first aid incidents includes cleaning minor cuts, scrapes or scratches, treating a minor burn, applying bandages or dressings, cold compress, cold pack, ice bag or splint. First aid incidents are recorded when first aid treatment is required as a result of a work-related injury. The recordable first aid incidents are usually referred by accident rates, and are one of the many items that can be used for measuring past performance.
