Jacobs Publishing Books This popular series of books employs a search-and-shade technique.

Students work the exercises and search for the answers on a grid.

Each square containing an answer is shaded according to a shading code shown for that exercise.

By Russell F. Jacobs. "Designs in the Coordinate Plane" brings a whole new twist to Jacobs Publishing's popular "Design" series. The student works math exercises which define ordered pairs of numbers that are then located as points in a coordinate plane. The student follows directions to connect the points so that a geometric design emerges.
